Middletown, Conn., April 30 (special).-Wesleyan University has adopted a radical change in its method college government. In the last week a joint committee of students and professors has been elected by the undergraduates and the faculty to put the new ideas into operation. This joint committee will meet at stated intervals, or on special call from its chairman. One of its most important duties will be to consider all violations of college order. The committee has full authority to make any investigations that may be thought necessary in extreme breaches

of discipline. In addition to this the committee will discuss questions of college athletics, the vexed question of examinations, and other matters involving particu-
